Subject: RE: Announcements for all-hands meeting/pizza party tomorrow

Oh, I may have messed up the earlier responses when I resent the invitation today. Even more reason to round up the number to ~50.

woops! I could have sworn I responded 'cause it's on my calendar. Sorry about that. And yes, definitely split the cost. Thanks so much for organizing! Sue

Oh, and one more update, promise this is the last one –

I looked at the “tracking” list more closely and see a number of names of people who didn’t accept but I expect will be there (e.g., Mike Slimak, Sue Rieth) so I’m guessing we should plan for 50 people.

I propose that some of us “senior” people split the cost and we can work that out tomorrow. I looked at websites tonight and the total could be \$300-400 if we have delivery from Paisano’s (which is close – though I didn’t think to check out the one across the street)

Subject: Announcements for all-hands meeting/pizza party tomorrow

Hi, here’s a starter list for announcements. Others can add suggestions if they like. Whoever is actually making announcements can say whatever they want!

1. Mike can say hello, words of wisdom, vision, plans, whatever he wants

2. New faces, new people in NCEA-PY:

→ Mike

→ Branch chiefs – Britta

→ new SSC in IRIS program (Anna, someone else just started in the past couple of weeks)

→ changes in the IO (not really new but I’m not sure it’s been announced)

→ other?

3. Possibly some basic announcements, like reminders about training, PARS approaching

4. Recognizing accomplishments from this year:

→ getting IRIS assessments out! Final assessments for Ammonia and TMBs being released soon, those for Benzo[a]pyrene and Ethylene Oxide targeted for the end of the year, and

→ HUGE scientific and technical support for regulatory or policy actions across EPA. A quick list:

National Ambient Air Quality Standards

Clean Water Rule – Scientific research and technical support for policy and litigation

Region 10 and Office of Water – Bristol Bay technical support and litigation

Office of Water, Conductivity – Support to development of EPA’s conductivity methods report

OPP glyphosate assessment – expertise provided in both evaluating science and review

OW - PFOA/PFOS health advisory

OW – Perchlorate

Atrazine

Lead/Copper rulemaking

Flint – analyses of Pb water data

Gold King Mine – exposure analyses

R8 - Chlorophacinone exposure in bison

OAR and Region 6 – Chloroprene, NATA

→ Global team accomplishments – ICLUS, Stormwater report, RMN, etc – can someone from global/Wash jump in?

→ IRIS Program – Multi-year agenda, drafts of handbook and annotated outline, other major steps forward (Vince?)

Some recognition for individuals (who I expect will be there):

→ Cheryl Itkin, bronze medal from OPPT for leading QA Audit in OPPT/RAD

→ Sue Norton, Freshwater Society award

Chris Saint has some awards from last year for people who didn't attend the awards ceremony. I don't have the list at hand but they could be handed out tomorrow.
